

## **Visit to Ordnance Survey**

The visit to Ordnance Survey starts off with talks from various research teams from Research Labs in the Business Centre. They will provide an overview of their work and research topics. This is followed by a tour of Photogrammetric Services, where the group will be split into two and guided around the Department. Following on from the tour is a talk about change detection in remotely sensed images. The final talk will conclude the visit by exemplifying how OS data is involved in real scenarios through the London 2012 Olympics.

### **Agenda:**

- 14:50 Arrival: Welcome & Housekeeping
- 15:00- Talks from Research Labs:
  - 15:45 David Holland - Remote Sensing
  - Guy Heathcote - Data Modelling
  - Nicolas Regnauld - Generalisation
- 15:50 Tour of Photogrammetric Services
- 16:25 Mark Tabor - Change detection
- 16:40 Andy Wilson - London 2012
- 17:00 Departure
